

## CK(LMW)

Mouse Monoclonal antibody(Mab)

Catalog # AD80123

### Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | IHC-P                  |
| Primary Accession | <a href="#">Q01546</a> |
| Reactivity        | Human                  |
| Host              | Mouse                  |
| Clonality         | Monoclonal             |
| Clone Names       | AE1                    |
| Calculated MW     | 65841                  |

### Additional Information

---

|             |                                                                                                                             |
|-------------|-----------------------------------------------------------------------------------------------------------------------------|
| Gene ID     | 51350                                                                                                                       |
| Gene Name   | KRT76                                                                                                                       |
| Other Names | Keratin, type II cytoskeletal 2 oral, Cytokeratin-2P, CK-2P, K2P, Keratin-76, K76, Type-II keratin Kb9, KRT76, KRT2B, KRT2P |
| Dilution    | IHC-P~~Ready-to-use                                                                                                         |
| Storage     | Maintain refrigerated at 2-8°C.                                                                                             |
| Precautions | CK(LMW) Antibody is for research use only and not for use in diagnostic or therapeutic procedures.                          |

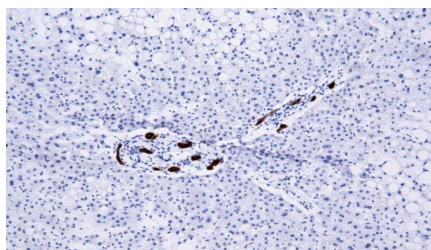

### Protein Information

---

|          |                                                 |
|----------|-------------------------------------------------|
| Name     | KRT76                                           |
| Synonyms | KRT2B, KRT2P                                    |
| Function | Probably contributes to terminal cornification. |
