

# C14orf105 Antibody - C-terminal region

Rabbit Polyclonal Antibody

Catalog # AI15645

## Product Information

---

|                   |                                                       |
|-------------------|-------------------------------------------------------|
| Application       | WB                                                    |
| Primary Accession | <a href="#">Q9NVL8</a>                                |
| Other Accession   | <a href="#">NM_018168</a> , <a href="#">NP_060638</a> |
| Reactivity        | Human, Rabbit, Horse, Yeast                           |
| Predicted         | Human, Rabbit, Horse, Yeast                           |
| Host              | Rabbit                                                |
| Clonality         | Polyclonal                                            |
| Calculated MW     | 34690                                                 |

## Additional Information

---

|                          |                                                                                                                                                                                                    |
|--------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID                  | 55195                                                                                                                                                                                              |
| Other Names              | Uncharacterized protein C14orf105, C14orf105                                                                                                                                                       |
| Format                   | Liquid. Purified antibody supplied in 1x PBS buffer with 0.09% (w/v) sodium azide and 2% sucrose.                                                                                                  |
| Reconstitution & Storage | Add 50 ul of distilled water. Final anti-C14orf105 antibody concentration is 1 mg/ml in PBS buffer with 2% sucrose. For longer periods of storage, store at 20°C. Avoid repeat freeze-thaw cycles. |
| Precautions              | C14orf105 Antibody - C-terminal region is for research use only and not for use in diagnostic or therapeutic procedures.                                                                           |

## Protein Information

---

|                   |                                                                                                                                                                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name              | CCDC198 ( <a href="#">HGNC:20189</a> )                                                                                                                                                                                                               |
| Function          | May be involved in tuning the metabolism, energy expenditure, and excretion processes.                                                                                                                                                               |
| Cellular Location | Cell membrane; Peripheral membrane protein<br>{ECO:0000250 UniProtKB:Q9CPZ1}. Cytoplasmic vesicle<br>{ECO:0000250 UniProtKB:Q9CPZ1}. Note=The localization of CCDC198 changes from membranous to vesicle-forming structures in the malignant tissue. |

---

Host: Rabbit

Target Name: C14orf105

Sample Tissue: HCT15 Whole cell lysate

S

Antibody Dilution: 1.0µg/ml

Please note: All products are 'FOR RESEARCH USE ONLY. NOT FOR USE IN DIAGNOSTIC OR THERAPEUTIC PROCEDURES'.
