

CDC25C Antibody

Purified Mouse Monoclonal Antibody
Catalog # AO1375a

Product Information

Application	WB, IHC, E
Primary Accession	P30307
Reactivity	Human
Host	Mouse
Clonality	Monoclonal
Clone Names	1F12
Isotype	IgG1
Calculated MW	53365 Da
Description	Cdc25C is a tyrosine phosphatase and belongs to the Cdc25 phosphatase family. It has been highly conserved during evolution and it plays a key role in the regulation of cell division. It directs dephosphorylation of cyclin B-bound CDC2 and triggers entry into mitosis. It is also thought to suppress p53-induced growth arrest. Cdc25C is mainly expressed in G2 phase. Multiple alternatively spliced transcript variants of this gene have been described, however, the full-length nature of many of them is not known.
Immunogen	Purified recombinant fragment of human CDC25C expressed in E. Coli.
Formulation	Ascitic fluid containing 0.03% sodium azide.

Additional Information

Other Names	M-phase inducer phosphatase 3, 3.1.3.48, Dual specificity phosphatase Cdc25C, CDC25C
Dilution	WB~~1/500 - 1/2000 IHC~~1/200 - 1/1000 E~~N/A
Storage	Maintain refrigerated at 2-8°C for up to 6 months. For long term storage store at -20°C in small aliquots to prevent freeze-thaw cycles.
Precautions	CDC25C Antibody is for research use only and not for use in diagnostic or therapeutic procedures.
