

# Fli-1 Polyclonal Antibody

Catalog # AP69903

## Product Information

---

|                   |                        |
|-------------------|------------------------|
| Application       | WB, IHC-P, IF, ICC, E  |
| Primary Accession | <a href="#">Q01543</a> |
| Reactivity        | Human, Mouse           |
| Host              | Rabbit                 |
| Clonality         | Polyclonal             |
| Calculated MW     | 50982                  |

## Additional Information

---

|                    |                                                                                                                                                                      |
|--------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Gene ID            | 2313                                                                                                                                                                 |
| Other Names        | FLI1; Friend leukemia integration 1 transcription factor; Proto-oncogene Fli-1; Transcription factor ERGB                                                            |
| Dilution           | WB~~Western Blot: 1/500 - 1/2000. Immunohistochemistry: 1/100 - 1/300. ELISA: 1/10000. Not yet tested in other applications. IHC-P~~N/A IF~~1:50~200 ICC~~N/A E~~N/A |
| Format             | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.09% (W/V) sodium azide.                                                                                        |
| Storage Conditions | -20°C                                                                                                                                                                |

## Protein Information

---

|                   |                                                                                                                                                                                                       |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Name              | FLI1                                                                                                                                                                                                  |
| Function          | Sequence-specific transcriptional activator (PubMed: <a href="#">24100448</a> , PubMed: <a href="#">26316623</a> , PubMed: <a href="#">28255014</a> ). Recognizes the DNA sequence 5'-C[CA]GGAAGT-3'. |
| Cellular Location | Nucleus.                                                                                                                                                                                              |

## Background

---

Sequence-specific transcriptional activator (PubMed: [24100448](#), PubMed:[26316623](#), PubMed:[28255014](#)). Recognizes the DNA sequence 5'-C[CA]GGAAGT-3'.
