

# Clathrin Heavy Chain Rabbit mAb

Catalog # AP77212

## Product Information

|                          |                                                               |
|--------------------------|---------------------------------------------------------------|
| <b>Application</b>       | WB, IHC-P, IF, ICC                                            |
| <b>Primary Accession</b> | <a href="#">Q00610/P53675</a>                                 |
| <b>Reactivity</b>        | Rat, Human, Mouse                                             |
| <b>Host</b>              | Rabbit                                                        |
| <b>Clonality</b>         | Monoclonal Antibody                                           |
| <b>Isotype</b>           | IgG                                                           |
| <b>Conjugate</b>         | Unconjugated                                                  |
| <b>Immunogen</b>         | A synthesized peptide derived from human Clathrin heavy chain |
| <b>Purification</b>      | Affinity Chromatography                                       |
| <b>Calculated MW</b>     | 192 KDa                                                       |

## Additional Information

|                    |                                                                                                    |
|--------------------|----------------------------------------------------------------------------------------------------|
| <b>Other Names</b> | CLTC/CLTCL1                                                                                        |
| <b>Dilution</b>    | WB~~1/500-1/1000 IHC-P~~N/A IF~~1:50~200 ICC~~N/A                                                  |
| <b>Format</b>      | Liquid in 10mM PBS, pH 7.4, 150mM sodium chloride, 0.05% BSA, 0.02% sodium azide and 50% glycerol. |
| <b>Storage</b>     | Store at 4°C short term. Aliquot and store at -20°C long term. Avoid freeze/thaw cycles.           |
