

# Nuf2 Antibody

Rabbit mAb Catalog # AP91744

### **Product Information**

Application WB, IF, FC, ICC
Primary Accession Q9BZD4
Reactivity Human
Clonality Monoclonal

Other Names CDCA1; CT106; hNuf2; hNuf2; hNuf2; NUF2; NUF2R;

IsotypeRabbit IgGHostRabbitCalculated MW54304

## **Additional Information**

**Dilution** WB 1:500~1:2000 ICC/IF 1:100~1:500 FC 1:50

**Purification** Affinity-chromatography

**Immunogen** A synthesized peptide derived from human Nuf2

**Description** Acts as a component of the essential kinetochore-associated NDC80 complex,

which is required for chromosome segregation and spindle checkpoint activity. Required for kinetochore integrity and the organization of stable

microtubule binding sites in the outer plate of the kinetochore.

**Storage Condition and Buffer** Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium

azide and 50% glycerol. Store at +4°C short term. Store at -20°C long term.

Avoid freeze / thaw cycle.

#### **Protein Information**

Name NUF2

Synonyms CDCA1, NUF2R

**Function** Acts as a component of the essential kinetochore-associated NDC80

complex, which is required for chromosome segregation and spindle

checkpoint activity (PubMed: <u>12438418</u>, PubMed: <u>14654001</u>, PubMed: <u>15062103</u>, PubMed: <u>15235793</u>, PubMed: <u>15239953</u>,

PubMed:<u>15548592</u>, PubMed:<u>17535814</u>). Required for kinetochore integrity and the organization of stable microtubule binding sites in the outer plate of the kinetochore (PubMed:<u>15548592</u>). The NDC80 complex synergistically enhances the affinity of the SKA1 complex for microtubules and may allow

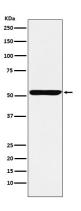

the NDC80 complex to track depolymerizing microtubules

(PubMed:23085020).

**Cellular Location** Nucleus. Chromosome, centromere, kinetochore. Note=Localizes to

kinetochores from late prophase to anaphase Localizes specifically to the
